

## Exd Series - Electric (Exd II BT4)

### Applications:

The Exd Series (Exd II BT4) are used for the following:

- Cleaning reaction still, tank, bucket and groove, etc
- Pipe cleaning and dredging
- Cleaning tabulation of heat exchanger, condenser and etc.
- Get rid of oil and grease.
- Cleaning floor
- Cleaning equipment

HBP210/HBP280S

### General Features:

- Industrial ceramic plunger pump
- Unloader valve: adjust pressure
- Stainless Steel Vibration-proof Pressure gauge
- Precise inlet filter
- Water temperature protection
- Overheating, overload and under-voltage protection
- Motor: Exd II BT4 S1 level, 24 hours continuous working
- Drive: coupling
- Rack: Epoxy coated steel frame, movable

HBP360/HBP500

### Standard Accessories:

- High pressure hose, 10m
- Spray gun
- Stainless steel lance, 900mm
- Flat spray nozzle, ceramic nozzle, 15°
- Straight jet nozzle, ceramic nozzle

★ All models of Explosion-proof series are available with EX certification
