

## Derusting Series - Electric

### Applications:

The Derusting Series are used for the following:

- Tank cleaning
- Ship hull cleaning
- Marine surface prep
- Derusting
- Clear oyster
- Descaling
- Deck cleaning
- Cargo hold cleaning

EP360

### General Features:

- Triplex pump with 3 ceramic plungers
- Unloader valve, with by-pass system, infinitely variable volume and pressure
- Stainless steel liquid filled pressure gauge
- Micro Water Filter
- Lack of water protection
- Temperature protection
- Motor with thermal protection
- Industrial motor, S1, IP55, F, with 100% running time (24h running)
- Pump and motor separated by flexible clutch
- Wheel heavy trolley mounted unit, epoxy painting

EP500S

### Standard Accessories:

- High pressure hose, 10m
- Spray gun
- Stainless steel lance, 900mm
- Flat spray nozzle, 15°
- Straight jet nozzle
- Cable: 5m
- Inlet hose: 5m
